

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

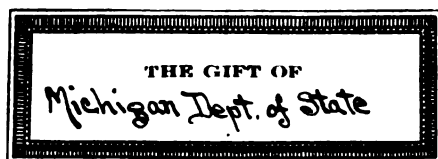

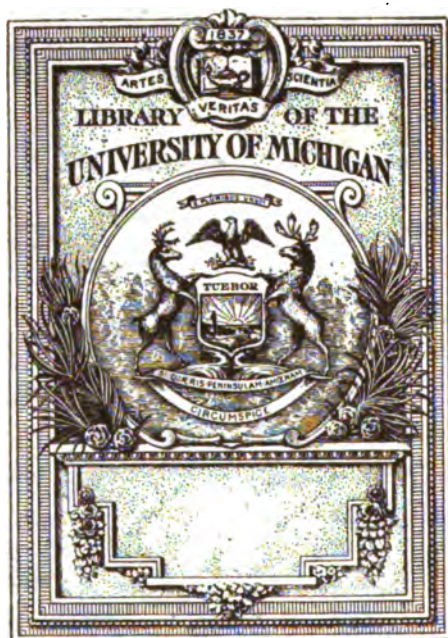

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

When the question is on a motion to reconsider, under the operation of the previous question, and it is decided in the affirmative, the previous question shall have no operation upon the question to be reconsidered. If the Senate refuses to order the previous question, the consideration of the subject shall be resumed, as if no motion therefor had been made.

Rule 1. Each house shall transmit to the other all papers on which any bill or resolution shall be founded.

Rule 2. When a bill or resolution which shall have passed one house is rejected in the other, notice thereof shall be given to the house in which the same may have been passed.

Rule 3. Messages from one house to the other shall be communicated by the Secretary of the Senate and Clerk of the House of Representatives, respectively, unless the house transmitting the message shall especially direct otherwise.

Rule 4. It shall be in the power of either house to amend any amendment made by the other to any bill or resolution.

Rule 5. In every case of a difference between the two houses upon any subject of legislation, the house wherein the difference arises shall advise the other house of the disagreement. Such other house shall then either recede from its position relative to the subject under consideration, or insist thereon and ask for a conference. Upon granting the request for a conference the house granting the request shall name three of its members as conferees on its part at said conference, and shall notify the other house of its action. Such other house shall thereupon name three of its members as conferees on its part at said conference. The bill under consideration shall be delivered to the conferees on the part of the house in which it originated. The conferees on the part of the two houses shall meet and consider the matters of difference between the two houses. In case the conferees of the two houses are unable to agree they shall report that fact to both houses, and the bill shall accompany the report to the house in which it originated. The situation shall then be the same as if no conference had been requested. In case of an agreement the conferees of the two houses shall make detailed report thereof, which report shall be signed by at least two of the conferees of each house, and the report, together with the papers in the case, shall be submitted to the house in which the bill originated. The vote shall be on the adoption of the conference report, and if the question shall be decided in the affirmative, the bill, together with the conference report, shall be transmitted to such other house with the information that the report has been adopted. If the question be decided in the negative the other house shall be notified thereof, and the situation shall then be the same as if no conference had been requested. When (the conference report having been adopted by one house) the report with the papers in the case shall have been transmitted to the other house, the question in such other house shall be on the adoption of the conference report. If the question shall be decided in the affirmative the bill shall be returned to the house in which it originated with the information that the other house has concurred in the adoption of the conference report, and the bill shall then be referred for enrollment, printing and presentation to the Governor. If the question shall be decided in the negative, the situation shall then be the same as if no conference had been requested. In either house the question on the adoption of the conference report shall not be subject to amendment or division, and the vote thereon shall be taken by yeas and nays.

Rule 6. It shall be in order for either house to recede from any subject matter of difference existing between the two houses at any time previous to a conference, whether the papers on which such difference has arisen are before the house receding, formally or informally. A majority shall govern, except in cases where two-thirds are required by the constitution; and the question, having been put and lost, shall not be again put the same day. The consideration thereof in other respects shall be regulated by the rules of the respective houses.

Rule 7. In case each house adheres to its disagreement, the bill which is the subject of difference shall be deemed lost, and shall not be again revived during the same session in either house, unless by consent of three-fourths of the members present of the house reviving it.

Rule 8. The same bill shall not amend or repeal more than one act of incorporation; nor shall the same bill appropriate public money or property to more than one local or private purpose. Any bill appropriating moneys for the payment of the officers of the government shall be confined to that purpose exclusively.

Rule 9. Whenever there shall be an election of any officer in joint convention the result shall be certified by the president of the senate and the speaker of the house of representatives; shall be announced by the presiding officers to their respective houses; shall be entered on the journal of each; and shall be communicated to the governor by the secretary of the senate and clerk of the house of representatives.

Rule 10. Whenever both houses, by the constitutional vote, direct that any bill shall take effect immediately, a statement shall be added thereto at the enrollment of the bill in words to this effect: "This act is ordered to take immediate effect."

Rule 11. Proposals for amendments to the constitution shall be by joint resolution, which shall take the same course as a bill.

Rule 12. Whenever a bill shall have been passed by both houses of the Legislature, the objections of the governor to the contrary, notwithstanding, or whenever a joint resolution proposing an amendment to the constitution shall have been agreed to by both houses in the manner prescribed by the constitution, such bill or such joint resolution shall be duly enrolled and signed by the presiding officers of both houses. The secretary of the senate and the clerk of the house shall then each attach a certificate to such enrolled copy, to the effect that the same has been passed or agreed to, as the case may be, by the senate and house respectively, in accordance with the provisions of the constitution, and shall forthwith file the same in the office of the secretary of state.

Rule 13. The title of every bill to amend or repeal existing laws passed prior to the date of the last general compilation shall refer to the chapter of the compilation containing such act, and to the sections proposed to be amended or repealed. When a bill to amend an existing law is printed, words proposed to be added to such law shall be enclosed in brackets; the omission of words shall be indicated by stars; and when the proposed alteration is of such character that it cannot readily be indicated in either of the foregoing ways, it shall be indicated by printing in italics the parts differing from the existing law.

Rule 14. The legislative postoffice shall be kept open every week day from 8 o'clock a. m. to 9 o'clock p. m., and on each Sunday from 12 o'clock noon until 1 o'clock p. m., and the mail shall be delivered to the Lansing postoffice in time for the outgoing trains on Sunday evenings.

As soon as may be after the announcement of the standing committees of the two houses, the Secretary of the Senate and Clerk of the House of Representatives shall prepare and have printed a legislative handbook containing information as to the district, home postoffice, Lansing address and profession or occupation of each Senator and Representative. Such handbook shall also contain a list of the standing committees of each house showing membership of each committee, a list of officers and employes of each house and such other matter as the Secretary of the Senate and the Clerk of the House of Representatives deem advisable.

COMMUNICATIONS FROM STATE OFFICERS.

The following communication from the Auditor General was received, read, and ordered spread on the Journal:

January 24, 1921.

Hon. Thomas Read,
President of the Senate,

Dear Sir:

In accordance with the provisions of Act 226 of 1917, I submit herewith a statement relative to the Rural Agricultural Schools.

State aid has been forwarded to the following Rural Agricultural Schools:

County.	Location of school.	Amount.
Genesee	Gaines	\$1,800.00
Genesee	Goodrich	1,500.00
Genesee	Grand Blanc.....	2,000.00
Houghton	Tapiola	1,550.00
Jackson	Napoleon	1,800.00
Wexford	Buckley	1,500.00
Wexford	Hoxeyville	1,800.00
		<hr/>
		\$11,950.00

I am advised by the Supt. of Public Instruction that the following schools have commenced proceedings to be enrolled under the rural agricultural school act:

"The following have organized either directly under the rural agricultural act or under the township unit act and then voted to come within the provisions of the rural agricultural school act:

Benzie County.....	Thompsonville.
Calhoun County.....	Battle Creek.
Eaton County.....	Windsor.
Ingham County.....	Haslett.
Lenawee County.....	Sand Lake.
Livingston County.....	Hartland.
Luce County.....	Columbus.
Shiawassee County.....	Byron, Perry.

The following have voted to come within the provisions of the township unit act with the intention of voting to come within the provisions of the rural agricultural act:

Eaton County.....	Walton.
Iosco County.....	Plainfield.
Livingston County.....	Unadilla.
Lapeer County.....	Hadley.
Mason County.....	Logan.
Muskegon County.....	Montague.
Bay County.....	Bentley.
Tuscola County.....	Juniata.

The following two districts have organized under the rural agricultural act but have made no attempt to provide a consolidated school as required in that act and in all probability will not qualify within the next two years.

Calhoun County.....	Albion.
Shiawassee County.....	Bennington.

The following will qualify for state aid the present year, and according to the amount that was necessary to maintain the consolidated schools receiving state aid the last year it will be necessary that special provisions be made for funds for these schools for the fiscal year:

Charlevoix County.....	Boyne Valley.
Lake County.....	Luther.
Manistee County.....	Bear Lake.
Van Buren County.....	Mattawan.

Those districts that have not qualified to come within the provisions of the act in all probability will qualify for state aid within the next year.

Besides this list that I have given you there are several places where consolidation is being seriously considered with the probability that many of these places will have voted to become consolidated districts before the beginning of the fiscal year, July 1, 1921. I regret that I cannot give you at this time a list of these places. I am merely calling your attention to it so that you may know that there may be several more consolidated districts qualifying for state aid within the next year or two years.

Yours very truly,
(Signed) T. E. JOHNSON,
Superintendent of Public Instruction."

Respectfully submitted,
O. B. FULLER, Auditor General.

Communications from State Officers.

The following communication from the Secretary of State was received, read, and referred to the Committee on Highways:

Lansing, Mich., January 26, 1921.

To the Legislature of the State of Michigan:

Section 3 of Act number 383 of the Public Acts of 1919 contains the following phraseology,

"and in addition thereto it shall be the duty of the Secretary of State to keep a separate record showing the engine numbers of all motor vehicles registered hereunder in numerical order, with the license number assigned to such vehicle appearing opposite, which records shall be appropriately indexed according to the trade name under which such motor vehicle is sold."

This section of the statute requires me to keep what is commonly termed a motor number index. I find that the statute requires me to keep an alphabetical index of all motor vehicle owners, that is to say, the original application for the motor vehicle license in alphabetical order, also a numerical index of the plates issued, and the keeping of this index as provided by this section of the statute compels me to keep a third index. I have investigated the worth of this motor number index and find it is of little practical use. The original application contains full information including the motor number of the applicant's car verified by him, and we are in position to furnish all the information desired without this index, except in very exceptional cases. The cost of the keeping of this index to the State amounts to a considerable sum of money. I should estimate in the neighborhood of \$15,000.00 to \$20,000.00 a year, and, for the service it renders, it is an expensive proposition, and in my judgment, it would be wise to repeal this clause of the section.

This communication is in nowise a reflection upon my predecessor, as the statute was only passed in 1919, and the former Secretary of State, Mr. Vaughan, joins with me in recommending the elimination of this work.

Very respectfully yours,
CHARLES J. DELAND, Secretary of State.

Question of Personal Privilege.

Mr. Baker rose to a question of personal privilege, stating that certain charges against himself had been made in an article in the Detroit Free Press of January 20, 1921. The article referred to was sent to the desk and read by the Secretary, as follows:

'WILD CHARGES' GIVEN REBUKE

House Tones Down Senator Baker's Resolution for Community Council Probe.

(By John H. Dunnewind, Free Press Staff Correspondent.)

Lansing, Mich., Jan. 19.—Senator "Herb" Baker's easy manner of attacking a lot of good citizens of Michigan for the sake of the publicity he gets out of his attacks, received a rebuke in the lower house Wednesday when his resolution to "investigate" the state community council was reported out by the rules committee.

While the committee reported favorably, it took Baker's wild and unbridled language, and reduced it to a simple statement that, whereas charges had been made that the council had not spent its money in a proper manner and that the bill creating it had been drawn so that there might be questions as to the exact meaning of the terms, an investigation ought to be made.

COUNCIL NOT SECRETIVE.

Baker's attack on the community council in the senate, which adopted the resolution just as "Herb" drew it, with all the time-worn phraseology of the "peepul's friend" rushing to the rescue of the public, is a joke among those who know "Herb" and his methods of centering the limelight upon himself. Baker introduced the bill himself two years ago; he was well acquainted with the authors of the bill and it took a little argument to get him to introduce it.

Since the war came to an end the money received by the joint state patriotic organizations and the money left in the treasury of that organization came under control of the council. The disposition of these funds was a matter of widespread publicity for weeks, particularly as part of the fund was used for the welfare work of the American Legion and much discussion arose as to the legality of the expenditures, for which purpose the council organized by counties representative men and women in each county of the state constituting the county board. The counties have a state board, composed of representative men and women, headed by Carroll F. Sweet, Grand Rapids, banker and a capitalist.

"WILD STUFF"—JEROME.

Baker's resolution flatly charges these men with actions that were reprehensible when viewed from a public standpoint and the house refused to stand for the flat charge, the committee declaring that while it was always ready to entertain charges, it was not willing to make them first, convict the "offender" and then select a jury.

"We are going to put a stop to this undesirable language in resolutions and motions that go without committee consideration," said Representative James J. Jerome. "Some of this stuff is altogether too wild. The Baker resolution flatly charged these people with failing to account for money. It's all right as a charge and all wrong as an accomplished fact, because the charges have not been investigated."

Baker, for a long time has had a large section of the legislative people well buffaloeed with the impression that he is a reform leader, but that his grip is breaking, was shown in the senate when his attempt to have all so-called junketing trips suspended, was sat on heavily.

COSTLY JUNKET RECALLED.

The legislature is still laughing over this bump to "Herb's" limelight ambitions, as Baker was the prime figure in the biggest and costliest junket ever planned in Michigan. This was a few years ago when, so secretly that only those "let in on it" knew of what was going on, Baker arranged to have himself made a junketeer to make a trip to Europe to investigate land credit banks. The European war was in full fling and traveling was highly restricted, but it was naturally a splendid trip, especially if backed by the state. "Herb" made the mistake of setting out for New York too early. A few hours after he left, the fix-up became public and when Herb got to New York, a telegram apprised him that the backers of the bill, appropriating money for Herb's trip to Europe, had been bumped off the boards. Herb returned, out his fare to New York and back.

No defense of the community council is contained in the attitude of the house—merely that of properly placing before itself, a matter of investigating charges. Baker's claims that \$1,250,000 is unaccounted for is characterized, however, as bosh; in fact, has already been proved so in prior proceedings by state officials with reference to the council's expenditures.

SAID BILL "DEFTLY" DRAWN.

One of the council's activities has been a survey of state government that is now being printed and will be offered to the state. The work, whether pointing the way for Michigan or not, is an exhaustive review, containing an immense amount of information not generally accessible. On the question of its advisability, the members of the legislature do not care to decide until it can review the work.

Before the house committee, Baker admitted that he introduced the bill, but said it was so "deftly drawn" that he had seen no harm in it.

It is generally believed that the community council's organization will be wiped out by the legislature, or at least so materially altered in form and functions that present objections to it will be removed, Baker's part, however, is laughed at because of his knowledge of the bill and of the activities of the council, and particularly because at all times the council heads have taken no action not ratified by a majority of the counties.

Mr. Baker also sent to the desk a statement signed by himself, and the Secretary read the statement, as follows:

"Out of respect for the opinions of my colleagues and in the interest of fairness, I wish to state to the Senate the facts with relation to the matters mentioned in this article.

"In the first place the language of the resolution introduced by me on the 17th day of January, which is the subject of this attack, is not the language of Senator 'Herb Baker' as stated in the article, for the resolution as presented was prepared in the office of the Attorney General of the State of Michigan, and the phraseology and language was in no case suggested by me. The statement in said article that I was 'well acquainted with the author of the bill' creating the Community

Council is misleading in that it infers my consciousness of what the Governor has characterized as its 'vicious' character. And in this connection I wish to state to the Senate that I was asked to introduce this bill by the editor of the Adrian Telegram, who assured me that it was a very meritorious one, having for its purpose the continuation of a very essential community-service organization built up as result of the war and in imminent danger of disintegration to the injury of the general public and of agricultural communities in particular.

"I introduced the bill as a matter of courtesy to Mr. Perry and some of his associates with whom I am acquainted. In fairness to Mr. Perry, I will state that I believe him to have been among those deceived as to the real purpose of the bill. It is worthy of note that the bill was considered and passed by the Senate in my absence, which is rather unusual, and that its passage through both houses appears to have been directed by a master hand as it was presented and ready for consideration by the Senate on April 3rd, was considered by proper committee in each house, by committee of the whole in each house and had passed third reading in each house by April 17th.

"The arraignment in said article of myself as an arch junketeer is vicious and fallacious. The matter evidently referred to was a bill to provide for the appointment of a commission to co-operate with like commissions appointed from other States to investigate the European system of agricultural credits and credit banks, which was introduced in the Legislature January 20, 1913, by Mr. Downing, a farmer member from Wayne county. The proposal to investigate the European system of credit banks and rural credits generally emanated from the Southern Commercial Congress in a desire to finance the operations of the cotton growers of the South. The grain growers of the Northwest became interested in the matter and the program of the Southern Commercial Congress was adopted by the Farmers National Congress, also by the National Grange and other agricultural organizations. The plan of the Allied Farm Organizations was to have each State appoint two members of the general commission to investigate the matters referred to and report their findings to the Congress of the United States. This matter came up in the Legislature of the State of Michigan a short time before the Commission was scheduled to leave this country. At that time practically every State in the union had made preparation for representation. Some one unknown to me brought the matter to the attention of the Michigan Legislature at the opening of the session of 1913, and Mr. Downing, Representative from Wayne county, whom I had never met, introduced a bill and with the assistance of those interested in rural credit legislation secured its passage through the House. I had no expectation nor hope if the bill was passed that I would be appointed as a member of that committee, and indeed, the first intimation I had that I was even being considered, was a long distance telephone communication from the Governor to me at my farm in Cheboygan county, that in anticipation of the probable passage of the bill by the Senate, the Governor had selected me as one of the delegates and advised me to be in readiness to go with the commission in case the bill passed. Within a day or two thereafter, I received another long distance telephone communication from the Governor at my farm in Cheboygan county, advising me that the bill had failed of passage in the Senate.

"The article in the Free Press states:

The war was in full swing and traveling was highly restricted, but it was naturally a splendid trip, especially if backed by the State. 'Herb' made the mistake of setting out for New York too early. A few hours after he left, the fix-up became public and when 'Herb' got to New York a telegram apprised him that the backers of the bill appropriating money for 'Herb's' trip to Europe had been bumped off the boards. 'Herb' returned, out his fare to New York and back.

"The facts are, I did not start for New York, nor any other place and was not out a cent.

"The commission without Michigan representation, made the proposed investigation, reported to Congress with its recommendations, and we now have our own system of Federal Land Banks which has refunded hundreds of millions of dollars of short time farm mortgages into long time obligations with low interest rates and amortization system of payment.

"If the Rural Credits Commission bill of Mr. Downing had had the benefit of such expert tutelage as the Community Council bill evidently had, there is little

doubt that I would have the distinction of participating in the greatest 'junket' ever proposed in the Michigan Legislature.

"The statement that Baker's claim that \$1,250,000.00 is unaccounted for is wholly gratuitous, for neither in the resolution as presented, nor in private conversation have I stated that such sum or any other was unaccounted for.

"The inaccuracy and obvious viciousness of this article as a whole demonstrates the lack of fairness and honesty of purpose of its author and lends color to the suspicion of a community of interest between him and the moving spirit of the community council law, which the governor has characterized as a piece of vicious legislation.

"I wish to call attention also to the author's lack of knowledge of world history in stating that the war was in full swing at the time this matter came up, as the Senate journals disclose that this entire affair occurred more than a year before the war in Europe started.

"The reckless disregard of the truth and the miserable sense of fairness exhibited by the author of this article who deprecates the use of wild and unbridled language, the launching of intemperate and unfounded criticism and the publishing of wild charges clothes this article with a truly comic opera color and arouses recollections of Theodore Roosevelt and his notorious Ananias Club."

HERBERT F. BAKER,

Asking Congress to restore to the states control of the capital securities of railroad corporations organized under state sovereignty whose lines are built wholly within the state.

Whereas, The Congress of the United States has, by the Interstate Commerce Act as amended by the Transportation Act of 1920, attempted to control the capital securities of railroad corporations organized under state sovereignty whose lines are built wholly within the state, thereby depriving the state of its control thereof, and indirectly placing under the control of the Interstate Commerce Commission all matters of improvements, extensions, betterments, abandonment and discontinuance of railroad lines and facilities, and has attempted to deprive the state of its control over capital securities of corporations created under its laws; of its control over extensions, betterments, abandonments and discontinuances of railroad lines wholly within the state; of its control of train service wholly within the state; of its power over police regulations, grade separations, safety appliances and sanitary terminals; and has established rates for intrastate commerce, and the Interstate Commerce Commission has assumed to set aside state freight and passenger rates for intrastate traffic; and has sought to deprive shippers and travelers of the right to complain to the confiscation of their property by the extortion pursuant to the orders of the Interstate Commerce Commission, of rates and fares "substantially, and unreasonably in excess of a fair return upon the value of the railway property held for and used in the service of transportation;" and such action upon the part of the Congress of the United States as construed by the Interstate Commerce Commission, has crippled manufacturing industries, destroyed the value of farms and of farm products, placed an unreasonable burden upon the public, enabled the railroads to pay extortionate and unreasonable costs of operation, crippled transportation, and impaired the general welfare of the people; now therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the legislature of the State of Michigan urge upon all members of the Congress of the United States, and particularly the members thereof representing the State of Michigan, the amendment of the Interstate Commerce Act as amended by the Transportation Act of 1920 so as to restore to the States the control of the capital securities of all railroad corporations created under the sovereignty of the states and operating railroads wholly within the territorial limits thereof; the control by the states of intrastate rates over intrastate traffic; and the authority of the states to compel service by railroads in the transportation of persons and property on the basis of a fair return upon the fair value of the used and useful property of the railroad company.

Communications from State Officers.

The following communication from the Michigan Public Utilities Commission was received and read.

February 8, 1921.

To the Honorable, The Michigan State Senate,

Gentlemen:—The Michigan Public Utilities Commission transmits to you herewith a report containing a resume of the work of that Commission covering the period beginning May 16, 1919 and ending December 31, 1920.

A copy of that report has also been laid upon the desk of each Senator.

Very respectfully,

MICHIGAN PUBLIC UTILITIES COMMISSION,

By WILL H. BRUNSON,

Secretary.

The communication and report were ordered to be placed on file.

Reports of Standing Committees.

Mr. Wilcox submitted the following report:

To the Honorable Members of the Michigan State Senate:

We, the undersigned committee on the Michigan College of Mines, wish to report that upon our investigation of the material and financial condition of this institution we find both to be very good. We believe that the Board of Control and the President of the College are entitled to considerable credit for the work accomplished at such a comparatively low cost.

The average resident of the lower peninsula of Michigan does not realize the increased property value of the mining lands, made possible through the scientific methods of the engineers, graduated from this college. This school produces practical mining men and engineers such as no other institution in the United States or the world produces.

The foregoing statements are verified by the largest Mining Journals in the world.

We, therefore, recommend that the amount asked for by the Board of Control of this institution, and passed on by the Budget Commission, be allowed in full.

Respectfully submitted,

J. M. WILCOX, Chairman.

R. W. PHILLIPS,

GEO. M. CONDON,

Committee on College of Mines.

House Bill No. 121 (file No. 14)—

To amend section 4 and add section 68 to the General Banking Law, Act No. 205 of the Public Acts of 1887, so as to provide for the exercise of trust powers by corporations organized thereunder, and of banking powers by trust, deposit and security companies.

Communications from State Officers.

The following communication from the Attorney General was received, read, and ordered spread on the Journal:

Lansing, February 8, 1921.

To the Legislature of the State of Michigan:

In compliance with the directions contained in Act No. 24 of the Public Acts of 1919, the matter of preparing a general bill consolidating and simplifying the corporation laws has received the attention of this Department.

Such a bill has been drafted by members of the attorney-general's force commencing under my predecessor, Mr. Groesbeck, and completed under my supervision. Owing to the length of the bill, and the expense that would be entailed in having the same printed, we have concluded not to print the same in advance of its introduction in the legislature.

The general plan of this bill is as follows: The bill is divided into five main parts, with appropriate chapters under each part, and sub-divisions of chapters wherever the same could be employed; this for the purpose of arranging the contents in logical order and of dealing with kindred topics so as to avoid repetition. The bill embraces general commercial corporations, domestic and foreign, profit and non-profit, trustee corporations, ecclesiastical and educational corporations, secret societies, and general societies of a social nature; provides for the organization, regulation, powers, duties, etc. of the same, and prescribes their relations with the state.

In drafting this general bill, it was thought best not to include certain corporations, such as the banks, insurance companies, railroads and common carriers, trust companies, building and loan associations and safety deposit companies, because those classes are subject to special regulations which cannot very well be consolidated with any other laws. We have also omitted such corporations as cemetery and burial associations, agricultural and kindred fair societies, canal, river and harbor companies, summer resort associations, transportation, and water power companies, because of the special privileges granted to such corporations, and because their inclusion within a general law would unduly lengthen its provisions.

The aim has been to bring our corporation laws up to date,—especially with reference to commercial companies, and we have therefore included provisions for such features as welfare stock, so-called, shares of non-par value, voluntary dissolution etc; and for a new class to be known as trustee corporations.

The schedule calls for the repeal of some 95 separate acts relating to corporations, with suitable saving clauses for such corporations as have been organized under those acts. We have omitted from the repealing section the acts under which the churches and secret societies are organized, although making general provision in the bill for both of those classes of corporations. Possibly even those laws may be repealed, as we think they could safely be under this proposed act, but we have not felt at liberty to recommend that step at this time.

It is my recommendation that this bill be passed.

Very respectfully,

MERLIN WILEY, Attorney General.

Resolved further, That we hereby urge the United States Senators and Representatives in Congress from the State of Michigan to use their influence to have the estimates of the Secretary of Agriculture for \$214,000 for white pine blister rust work replaced in the agricultural bill now before the Senate, instead of the inadequate amount of \$100,000 proposed.

Motions and Resolutions.

Mr. Penney offered the following concurrent resolution:

Senate concurrent resolution No. 12.

Memorializing Congress to submit an amendment to the U. S. Constitution relative to an income tax.

Whereas, It is apparent that many citizens of Michigan favor levying hereafter, a State income tax such as is imposed by several other States, in an endeavor to more equitably distribute the cost of government, and to relieve the burden of taxation now necessarily placed upon real estate and personal property; and

Whereas, Adoption of the plan may cause many at the head of important organizations, and especially those with substantial incomes, to consider establishing their residences and business elsewhere, either in States levying a smaller income tax, or in States or territory where this particular tax is not and may not be put in force, thus in effect and result tending to become detrimental to the best interests of Michigan, and many other States where large enterprises exist; and

Whereas, It may nevertheless be necessary to levy and collect this proposed additional State tax, or its equivalent, in order to meet the continually growing cost of the State's needs; then in order to make the revenue from an income source uniform throughout the United States, and all citizens of the entire country contributing thereto exactly alike, also to avoid the expense, trouble and annoyance of preparing and filing two sets of income returns, (probably different in amount and principle), and afterwards accounting to two sets of officials, Federal and State, thus actually and unnecessarily doubling the cost of operation and collection; therefore, be it

Resolved by the Senate (the House of Representatives concurring), That the Legislature of the State of Michigan urge all members of the Congress of the United States, and particularly the members thereof representing the State of Michigan, to propose and submit an amendment to Article XVI of Amendments to the Constitution of the United States to be known as "Section 2," the Article when amended to read substantially as follows, viz.:

ARTICLE XVI.

Section 1. The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States, and without regard to any census or enumeration.

(Proposed Addition or Amendment to above follows, to be known as Section 2.)

Sec 2. Fifty per cent of the total amount of taxes on incomes collected in each State, according to section 1 of this Article, shall annually be returned to each State for its public funds and use. Payment thereof shall be by warrant to the official or department in each State designated by its law to receive State moneys derived from taxation.

Mr. Penney moved that the concurrent resolution be referred to the Committee on Taxation.

The motion prevailed, and the concurrent resolution was so referred.

By unanimous consent the Senate returned to the order of

Messages from the House.

A message was received from the House of Representatives transmitting, House concurrent resolution No. 15.

A resolution urging the Board of Regents of the University of Michigan to combine the Regular Medical College and the Homeopathic College, and also the hospitals of the two colleges.

Whereas, The Medical Department of the University of Michigan is composed of a Regular College of Medicine and a College of Homeopathic Medicine, each of which maintains a separate Hospital, thus entailing much unnecessary expense to the State in duplications of effort; and

Whereas, There are now only forty-seven students enrolled in all classes in the Homeopathic College; therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Board of Regents of the State University be and are hereby requested to take whatever action may be necessary to effect a consolidation of the two colleges and hospitals, in such manner and as soon, in its judgment as would be wise and expedient, and conducive to the best interests of the University and the people of the state.

The message informed the Senate that the House of Representatives had passed the joint resolution; in which action the concurrence of the Senate was requested.

Pending the reference of the joint resolution to a committee,

Mr. McArthur moved that the rules be suspended and that the joint resolution be placed on its immediate passage.

Lansing, March 8, 1921.

Hon. Byron Hicks, Senator, Ingham County, State Senate of Michigan:

Dear Sir:—At a meeting of The Lansing Minister's Association yesterday the following resolution was unanimously passed:

"We, the members of the Lansing Ministers' Association do hereby solemnly protest against the proposed legislation of the State Legislature looking toward capital punishment."

As Secretary I was instructed to communicate this resolution to the Michigan Senate through you. The ministers feel that capital punishment does not prevent crime, that it is a survival of barbarism, that it is unchristian and that measures of prevention, strict enforcement of the law, speedy justice and proper supervision of the abnormal should be sought rather than punishment by death.

The Lansing Ministers' Association represents twenty-five of the leading Protestant churches of the city. I shall appreciate it if you can make known to the Senate the stand the Lansing ministers, with the exception of Rev. John Willits who was not present at the meeting.

Very respectfully yours,
JOHN P. JOCKINSEN.

The following communication from the Michigan State Administrative Board was received, read, and upon motion of Mr. Clark, was ordered spread on the Journal:

March 9, 1921.

Senator Roy Clark, Chairman, Finance and Appropriations Committee, State Senate, Lansing, Michigan:

Dear Sir:—Attached you will find deficiency appropriation bill amounting to \$1,628,826.26 representing the amount of money the various State departments and institutions require for the remainder of the present fiscal year.

The Administrative Board, having the desire to assist the Legislature in this matter, recently called in the heads of the various departments and institutions for hearings on deficiency requests. The original amount asked by the departments and institutions was \$2,034,427.33. Following hearings it was found that \$405,601.07 could be deducted from various classifications, principally food, clothing and fuel, thus reducing the total to the amount given in the attached deficiency bill. The Administrative Board found that the State institutions as a rule had based their requirements on prices paid for the year ending December 31, 1920, but food commodities, fuel and other necessities have been greatly reduced in price and in some instances a decided reduction could be made.

Of the total amount requested in the attached bill \$745,857.36 is for personal service. The hearings held by the board brought out the fact that practically all of the different institutions increased salaries over the amount appropriated by the Legislature without any authority therefor. A very small portion of the increase, probably not over fifteen per cent, is accounted for by the employment of additional help since the last Legislature met. Eighty-five per cent of it is accounted for by the increases allowed by the different boards for salaries. The Administrative Board have made no reductions in the items of personal service being of the opinion that this was a matter for the Legislature to deal with entirely.

Auditor General Fuller is of the opinion that an additional sum of \$269,841.04 should be added to the attached deficiency appropriation measure to reimburse the general fund of the State for amounts expended in excess of the amount appropriated for the fiscal year ending June 30, 1921, for the following purposes: bounties on noxious animals and birds \$114,779.81, preservation of forests \$27,054.10, taxes on soldiers' land \$128,007.13. This will not be the total amount paid in excess of the amount appropriated as bills are received by the Auditor General almost daily for amounts to be payable for each of the above purposes but if the amount is included in the deficiency appropriation it will be included in the State tax of 1921 to reimburse the general fund of the State.

The board trust that the information given may be of value to the Legislature and if we can supplement the same by additional information we will be very glad to do so.

Very truly yours,
FRED B. PERRY, Secretary.

Leave being granted, Senator Engel submitted minority views on the above entitled bill. The views were read and ordered spread upon the Journal, as follows:

To the Senate: The undersigned, a member of the University Committee, not having approved the report of the majority of the committee, hereby files his minority report, making certain recommendation and giving the facts upon which he bases such recommendation and his failure to concur in the report of the majority of the committee.

In order to determine whether a certain appropriation for an institution should be made, all the requests of such institution should be taken into consideration together with such other facts as may assist us in determining the advisability of making such appropriation. With these facts in mind, I am including the following report, which will give the entire receipts from all sources of this institution, if all requests made are granted.

Requests for 1921-23.

1. Building program	\$8,690,000.00
2. Income as shown by the Auditor General's Report for 1919 (the last report printed) under "receipts from other sources, student's fees, etc." (two-year period)	3,124,664.00
3. Five-eighths mill tax, (based on an equalized valuation of five billions of dollars)	6,250,000.00
Total for two-year period	<u>\$18,064,664.00</u>

Requests for 1923-25.

1. Building program	5,000,000.00
2. Income from other sources per Auditor General's Report for 1919 (the last report printed) under "receipts from other sources, student's fees, etc." (two-year period)	3,124,664.00
3. Five-eighths mill tax	6,250,000.00
Total for two-year period	<u>\$14,374,664.00</u>

Requests for 1925-27.

1. Building program	\$5,000,000.00
2. Income from other sources per Auditor General's Report for 1919 (the last report printed) under "receipts from other sources, student's fees, etc." (two-year period)	3,124,664.00
3. Five-eighths mill tax	6,250,000.00
Total for two-year period	<u>\$14,374,664.00</u>

The 1923 and 1925 building program is based upon the statement of the President of the University that that amount would be asked for from the legislatures for those years. Number "two" itemized as "income from other sources" is based upon the enrollment of the University for the year 1919 which is considerable below the present enrollment. The amount therefore would be somewhat larger than herein shown.

From the above it will be seen that if all requests made by this institution are granted it will receive from all sources the sum of \$46,813,992.00 during the next six years.

While it is true that the student body of this institution has increased since 1918 from 6,734 to over 10,000, it is also true that the income of the University has increased accordingly during that time, due to the increased tuition and to the fact that it will receive this year, three-eighths mill on an estimated equalized valuation of five billions dollars as against a valuation of two billions eight hundred millions dollars of 1918. The present valuation is four and one-half billions. The following are the figures for 1918 and conservatively estimated figures for 1921:

Year 1918.

Three-eighths mill on \$2,800,000,000.00	\$1,050,000.00
Receipts from other sources, student's fees, etc., for 1918	1,045,722.89
Total receipts for 1918	<u>\$2,095,722.89</u>

Year 1921.

Three-eighths mill tax on \$5,000,000,000.00 (estimated) as new equalized valuation	1,875,000.00
Receipts from other sources estimated same as 1919.....	1,562,332.00
	<hr/> \$3,437,332.00

From the above it will be seen that while there was an increase in the number of students there is also an increase in the receipts of the institution since 1918, of \$1,341,609.11.

This increase ought to care for the increased number of students and increased costs, without further aid.

While the above is not necessarily a part of the appropriation bill before this committee these facts ought to be considered carefully before making such appropriation.

I am entirely in sympathy with the work of this institution and with the standing its president is trying to give it, and while I recognize the fact that there are certain urgent needs, I also recognize the fact that the State treasury is empty; that the State and Nation are in a critical financial condition and that the people of Michigan are now being taxed to the limit. Because of these facts, I do not feel justified in recommending to the Senate the passage of the bill.

I would make the following recommendations however:

1. That a definite building program be adopted for this institution, based upon its minimum needs and taking into consideration the present financial condition of both the state and the nation.

2. That such program be made to cover a much longer period of time so as to make the burden as light as possible on the taxpayer.

3. That the appropriations for the next two years be limited to the following:

	1922.	1923.
University Hospital	\$1,000,000.00	\$125,000.00
Equipment		375,000.00
Medical Building	450,000.00	340,000.00
Equipment		110,000.00
Dental Building	100,000.00	
Equipment		100,000.00

The following described land:

For Medical School.

Lots eight (8), nine (9), ten (10), eleven (11), twelve (12), four (4), five (5), six (6), seven (7) of R. S. Smith's Addition to the village (now city) of Ann Arbor, Michigan \$204,875.00

Other Land:

Lots thirteen (13), fourteen (14), twenty-two (22) and twenty-three (23) and the east seven (7) rods of lot 24 of R. S. Smith's Addition to the village (now city) of Ann Arbor, Michigan \$50,000.00

Lots one (1), two (2), three (3), the east half of lot six (6), seven (7), eight (8), the south 26 feet of lot nine (9), eleven (11), and fourteen (14) in block No. 1 of R. S. Smith's Third Addition to the City of Ann Arbor, Michigan \$24,565.00

Total	\$1,829,240.00	\$1,050,000.00

• State Office Building and Alterations in the State Capitol.

Mr. Henry sent to the desk a letter from the Governor, which was read, as follows:

Executive Office,
Lansing, March 22, 1921.

Hon. James Henry,
State Senator:—

Dear Sir:—In conformity with the conversation held this morning at a meeting of the State Office Building Board and yourself I find that there can be a deduction made in the appropriation for the new State Office and Library Building in the sum of \$32,500.00 without materially altering the building.

The State Office Building Board held a conference in my office last evening with W. E. Wood, President of the W. E. Wood Co., which company has the contract for the completion of the new State Office Building, and after going over all of the plans and specifications it was determined that there could be a change made by the omission of oil and lead paint on plastered surfaces substituting tinting instead, making minor changes in hardware used in the building and other changes which would make a net saving of as stated above, \$32,500.00.

The Board of State Auditors are considering asking the Legislature for an appropriation of approximately \$100,000.00 to remodel that portion of the present State Capitol now occupied by the State Library and Supreme Court Justices' offices in order to provide suitable offices for the Supreme Court. These figures were given me by the Board of State Auditors who have obtained estimates from various contractors as to the cost of remodeling that portion of the State Capitol above referred to.

I find that in the new State Office Building there is ample room for both the State and Law Libraries and suitable provision can be made for offices of the Supreme Court Justices whereby the Justices will be in close touch with the Law Library and be equipped with suitable offices which they have not had for a number of years.

At the present time we are making an endeavor to consolidate the auditing, accounting and purchasing departments of the State. Additional room in the State Capitol is necessary and at a cost of not to exceed \$12,000.00 according to the best figures I am able to obtain, that portion of the State Capitol that will be vacated by the removal of both libraries can be so changed as to accommodate the three above mentioned divisions thus providing not only sufficient room but providing for efficiency in carrying on the work of the State. By making these changes a net saving of approximately \$120,500.00 can be made.

Very truly yours,
ALEX J. GROESBECK,
Governor.

Explanation of Vote.

Mr. Ross submitted the following statement, in reference to his vote on the above entitled joint resolution:

"This is the fourth session of the Legislature I have had the privilege of attending as a member. During this time I cannot recall of having changed my vote on a question and it is the first time I have ever asked the privilege of explaining my vote.

I voted "No" on this resolution when it was up for consideration before, because, as the resolution was drafted, any county after having been granted a charter (providing this resolution is adopted) could frame, adopt and amend their charters to suit themselves. This would work to the disadvantage of the rural districts of a county like Genesee, where a large city is located. An amendment made in committee and which did not show on the bill, allows these changes in the charter to be made only under the general law. This would give the Legislature absolute control over these matters. Hence, I have changed my vote in favor of the submission of this amendment.

The following entitled bill was read a third time:

House concurrent resolution No. 8.

Asking Congress to restore to the states control of the capital securities of railroad corporations organized under state sovereignty whose lines are built wholly within the state.

Whereas, The Congress of the United States has, by the Interstate Commerce Act as amended by the Transportation Act of 1920, attempted to control the capital securities of railroad corporations organized under state sovereignty whose lines are built wholly within the state, thereby depriving the state of its control thereof, and indirectly placing under the control of the Interstate Commerce Commission all matters of improvements, extensions, betterments, abandonment and discontinuance of railroad lines and facilities, and has attempted to deprive the state of its control over capital securities of corporations created under its laws; of its control over extensions, betterments, abandonments and discontinuances of railroad lines wholly within the state; of its control of train service wholly within the state; of its power over police regulations, grade separations, safety appliances and sanitary terminals; and has established rates for intrastate commerce, and the Interstate Commerce Commission has assumed to set aside state freight and passenger rates for intrastate traffic; and has sought to deprive shippers and travelers of the right to complain to the confiscation of their property by the extortion pursuant to the orders of the Interstate Commerce Commission, of rates and fares "substantially, and unreasonably in excess of a fair return upon the value of the railway property held for and used in the service of transportation;" and such action upon the part of the Congress of the United States as construed by the Interstate Commerce Commission, has crippled manufacturing industries, destroyed the value of farms and of farm products, placed an unreasonable burden upon the public, enabled the railroads to pay extortionate and unreasonable costs of operation, crippled transportation, and impaired the general welfare of the people; now therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the legislature of the State of Michigan urge upon all members of the Congress of the United States, and particularly the members thereof representing the State of Michigan, the amendment of the Interstate Commerce Act as amended by the Transportation Act of 1920 so as to restore to the States the control of the capital securities of all railroad corporations created under the sovereignty of the states and operating railroads wholly within the territorial limits thereof; the control by the states of intrastate rates over intrastate traffic; and the

authority of the states to compel service by railroads in the transportation of persons and property on the basis of a fair return upon the fair value of the used and useful property of the railroad company.

Motions and Resolutions.

Mr. Vandenboom offered the following concurrent resolution:

Senate concurrent resolution No. 17—

A concurrent resolution requesting Congress to prosecute the improvement of the Great Lakes-to-Ocean highway.

Whereas, The production and the traffic of the United States have outgrown the means of transportation;

Whereas, The country between the Rocky Mountains and the Alleghanies have enormous resources whose development depends upon adequate transportation;

Whereas, The states bordering the lakes, and most of all the State of Michigan, are on the threshold of a new industrial era in which adequate transportation is a vital element;

Whereas, It has been shown by ample evidence that the situation for which there is no other relief can be fully remedied by such improvements in the St. Lawrence as will make the Great Lakes accessible to ocean-going commerce;

Whereas, There is now available for that route when opened a greater tonnage than that which now employs the Panama Canal with incalculable possibilities of expansion;

Resolved by the Senate (the House of Representatives concurring), That the State of Michigan demands as an economic right that this way to the sea be opened at the earliest possible moment.

That because of the enormous burden of war debt now pressing upon the country it is imperatively necessary that the new resources which will be created by this route be brought into production without delay.

That in view of the keen international competition which must soon be faced the place of the United States in world commerce can be maintained only by the aid of the best possible facilities.

That the right of the best way to market is one which cannot be denied with safety to the national well-being, or with security to the national economic structure.

That we urge, therefore, upon our Representatives in the Congress of the United States that they expedite by every means possible the measures for undertaking and prosecuting the improvement of the Lakes-to-Ocean highway.

Pending the order that, under rule 59, the concurrent resolution lie over one day,

Motions and Resolutions.

Mr. McRae offered the following:

Senate concurrent resolution No. 19.

Whereas, The Legislature, this session, is asked to authorize the expenditure of sums of money far in excess of any other session, and the financial problems facing this Legislature are perplexing and grave, we being compelled to resort to new forms of taxation to raise the revenue necessary to meet the requirements of the various agencies of the State, and,

Whereas, In this period of reconstruction, this time of industrial depression, and general unsettled business conditions, we do not wish to place any unnecessary additional burdens upon the people, or do anything that will retard the stabilization of industrial and business conditions, but having always in mind the welfare of the people of this State, and working at all times to alleviate their burden of taxation consistent with the economic interests of the State, and,

Whereas, Honorable Charles J. Deland, Secretary of State, has reduced the expenses of his Department, which action has resulted in a saving to the taxpayers of this State of \$480,227, which sum represents the difference between the original requests for this department and the actual sum deemed necessary by the present Secretary of State and shows a careful scrutiny of the needs of his office and expresses a desire on his part to manage the affairs of his office as economically as possible, therefore be it

Resolved by the Senate (the House of Representatives concurring), That this Legislature does hereby express its approval of the action of the Secretary of State, and believes his work in this respect worthy of emulation by the various agencies of the State, and we urge similar action, wherever it can be done consistent with the general efficiency of the department or institution, and be it further,

Resolved, That the Secretary of the Senate and the Clerk of the House of Representatives be instructed to forward copies of this resolution to the heads of all Departments and Institutions of this State.

Messages from the House.

A message was received from the House of Representatives transmitting House concurrent resolution No. 20.

A resolution memorializing Congress to amend the LaFollette Act so as to alleviate burdens now carried by Great Lakes shipping.

Be it resolved by the House of Representatives of the State of Michigan, (the Senate concurring),

That the existing laws of the United States governing the operation of vessels upon the Great Lakes and connecting waters are unreasonable to an extent that makes their continued operation a grievous burden and in many cases an impossibility. The conditions on the Great Lakes are vastly different than those on the high seas; runs are comparatively short and steamers are seldom out of sight of land and then only for a comparatively short time. The laws in question give vessels too little authority in times of danger; vessels plying on short runs are unnecessarily required to operate under the three watch system; the operating season is too short; unnecessary men are required; thus adding to the expense and forcing the already high passenger and freight rates to a still higher and almost prohibitive level;

These severe and inelastic regulations are totally unnecessary upon the Great Lakes. Neither necessity nor safety have counseled them. They have well nigh paralyzed the passenger traffic and made the freight traffic an insupportable burden to the public.

In view of these facts the Congress of the United States is respectfully requested to so amend and modify the LaFollette Act, so-called, as to alleviate these restrictive and burdensome conditions and to do so as quickly and speedily as possible; and be it further

Resolved, That a copy of these resolutions be transmitted by the Clerk of the House of Representatives to each of the Senators and Representatives from this State in the Congress of the United States, and they are hereby respectfully requested to use their utmost endeavors to secure the amendments to the said law.

HERBERT F. BAKER,
Chairman.

The report was accepted.

The amendments recommended by the committee were agreed to and the bill, as thus amended, was referred to the Committee on Finance and Appropriations under the rules.

Report of Special Committee.

Mr. Baker submitted the following report:
To the Senate and House of Representatives:

Your Committee, appointed to investigate and report concerning the activities of the Michigan Community Council Commission, begs leave to submit the following report:

The Michigan Community Council Commission, hereinafter referred to as the commission, created by Act 147, of the Public Acts of 1919, held its first meeting on April 10, 1919. Its organization, however, was not completed until its meeting of May 20, 1919.

The Community Service, Incorporated, is a New York Corporation, and is separate and distinct from the Michigan Community Council Commission, which is a Michigan organization. The Community Service, Incorporated, will also be referred to in this report as the corporation.

The Commission took over the Michigan Patriotic Fund in the capacity of Trustee, under the act above mentioned, and in addition received from the Woman's Council of National Defense a fund of \$1370.05, which latter fund was expended by the Commission in defraying office expenses, traveling and other expenses of its members, and like items, with the exception of a balance of \$52.97 remaining in the treasury on February 10, 1921. The Legislature of 1919 also appropriated \$10,000.00 for the purposes contemplated by the act creating the Commission.

The rights and duties of the Commission are set forth and defined in Section four of Act 147 of the Public Acts of 1919 in the following language:

"Sec. 4. Said commission shall have the power and authority to consider and investigate all problems of reconstruction and matters involving the general public welfare; to advise and consult, aid and co-operate with all public officers and official bodies in the State with regard to such matters; to recommend executive and legislative action; to aid in securing employment for returned soldiers and sailors and to initiate and assist movements designed for their welfare; to initiate plans and policies for voluntary efforts designed to promote the public interest and welfare in the entire State or any part thereof; to promote such plans and policies through organization, publicity, advice and supervision, and to co-operate with similar efforts and projects initiated or carried on by voluntary agencies or by official agencies of the State, by other states and by the federal government; to supervise all State-wide campaigns for funds for national patriotic or humanitarian purposes, to fix equitable county quotas for such campaigns, and to serve as trustees for the Michigan Patriotic Fund, and to have general supervision of the organization and administrative methods of the county community boards hereinafter provided for."

Exclusive of the amount paid or owing to the United War Work Campaign, the Michigan Patriotic Fund contained, on April 10, 1919, the date of the first meeting of the Commission, \$465,076.58. At the time of the appointment of your Committee, the Patriotic Fund contained \$221,321.74. This amount was later augmented by the addition of \$392.10, representing interest on bank deposits, making the total on hand \$221,713.84. There had been paid from said Fund between April 10, 1919 and the date of your Committee's appointment the sum of \$243,362.74, consisting of the following items:

Community Service Incorporated	\$132,246.40
National Committee American Legion	30,000.00
Michigan Department American Legion	45,000.00
Refund to Counties to make 100 percent paid	19,162.00
Michigan Executive Committee	4,362.67
American Red Cross, Jackson County	7,591.67
American Red Cross, Ottawa County	5,000.00

\$243,362.74

Of the foregoing items disbursed your attention is called to that paid to the Community Service Incorporated, \$132,246.40. This disbursement, according to the testimony of the chairman of the Commission, represents Michigan's quota of a national fund raised for community service purposes, and represents an obligation incurred before the organization of the Commission. The initial step, however, in bringing Community Service Incorporated into Michigan appears to have been taken on May 2, 1919, after the first meeting of the Commission, and after the meetings and deliberations of the Reconstruction Conference, so-

called, which preceded the formation of the Commission, prepared the bill which afterward became Act 147 of 1919, and which was for the most part attended and managed by those who afterward became members of the Commission; and your committee is of the opinion and so finds, that the Community Council Commission is in part, at least, chargeable with responsibility for this outlay of money from the Michigan Patriotic Fund. The Community Service Incorporated is now and since May, 1919, has been maintaining an organization in Michigan, with a resident representative drawing an annual salary of \$4,500.00, has employed and paid community workers of various types for conducting community song services, recreational and social activities and other forms of community work. Its Michigan representative is now serving as executive secretary of the Commission, receiving no salary or compensation from the Commission for that service. While some of the work done in Michigan under the direction of the Community Service Incorporated is in itself meritorious, your committee cannot escape the conviction that the immense sum paid to this organization could have been employed to much better advantage and with more beneficial results in other directions, at a time when sick and wounded men were returning from overseas, and in need of medical, surgical and other assistance and attention. Finding employment for returned soldiers and sailors or relieving their pecuniary needs appears to have been no part of the Community Service program.

Your committee commends the action of the Commission in paying the American Legion \$75,000.00. The testimony discloses the fact that the American Legion disbursed this sum for the benefit of ex-service men without regard to their affiliation with that organization; and the use of this money impressed your committee as being in strict keeping with the purpose for which the money was subscribed and collected..

The testimony taken by the Committee, including the testimony of officers and members of the Commission, fails to disclose any effort made by the Commission in the direction of finding employment for returned soldiers or sailors, or in initiating or assisting movements designed for their welfare, as was its duty under section four above quoted. The Commission appears to have left to Community Service Incorporated the full responsibility for the carrying out of the purposes enumerated in Act 147 of 1919, apart from the sum given to the American Legion and the small sums disbursed as above shown; and as already stated, the work done by said corporation lay along other lines.

Of the \$10,000.00 appropriated by the Legislature of 1919, for the purposes of Act 147, the Commission has expended \$6500.00, for services performed by the Institute for Public Service of New York, in the nature of survey of Michigan's form and plan of government. Of this amount so expended, vouchers for \$2000.00 and \$2500.00 were for a time suspended, on the advice of the Attorney General, who rendered an opinion holding that such expenditure was outside the authority of the Commission under the act creating it. Later, upon finding that the services in question had been in good faith performed by the Institute, the State Administrative Board, upon the recommendation of the present Governor, who, as Attorney General, had previously rendered the opinion above referred to, approved the payment of the vouchers, and the amounts have since been paid. From figures filed with your committee, the appropriation of \$10,000.00 appears to have been used to the extent of \$8908.76 as of February 10, 1921.

The act of 1919 placed the Michigan Patriotic Fund in the charge of the Community Council Commission as trustee; and in the opinion of your Committee, the right or authority of the Commission to use any part or portion of the principal of this fund was and is exceedingly doubtful. The act in question gave no directions concerning the use of this fund, at the same time appropriating a specific amount for the purposes contemplated by the act. In the opinion of your Committee, the Commission could lawfully have used such fund only for such purposes as the Legislature of Michigan should designate; and as no purposes were designated in the act of 1919, the Commission was without authority to make use of the principal of said fund. For the reason stated in this paragraph and elsewhere in this report, your Committee is of the opinion, and so finds, that the act of the Community Council Commission, in appropriating from the Michigan Patriotic Fund the amount paid to Community Service Incorporated, viz., \$132,246.40, was ill-advised, unauthorized and unwarranted in law; and that it was an impractical diversion of a large amount of money at a time when practical and immediate assistance was sorely needed by ex-service men. We, therefore, find

that this sum was for the most part dissipated. The Commission appears to have sought no legal counsel touching its rights or responsibilities under the act creating it, but to have proceeded under its own interpretation of the law; with the result that it has, in the judgment of your Committee, disposed of a considerable portion of the Michigan Patriotic Fund without receiving adequate returns and without having accomplished any practical good.

Concerning the other disbursements made by the Commission from the Patriotic Fund, your Committee has no comment to make. The sums so paid appear to have been used for legitimate purposes, even though the disbursements may not have been authorized in the first instance.

The resolution under which your Committee was appointed and under which its investigation has been conducted makes no charge of criminal or dishonest conduct; and we find no evidence of criminal or dishonest conduct on the part of the Michigan Community Council Commission or of any of its members.

In conclusion your Committee recommends that Act 147 of the Public Acts of 1919 be repealed, and the Community Council Commission be abolished; and that such part of the Michigan Patriotic Fund as remains unused be appropriated to purposes as nearly possible related to the purposes for which the moneys constituting said fund were originally collected.

Detroit, Mich., April 13, 1921.

Senator John W. Smith,

Senate Chamber, Lansing, Mich.

I note in the morning paper that Senate Bill No. 56 (file No. 45) has passed the Senate and I have just received a copy of said bill. It will be a physical impossibility for the election commission to get out the primary election ballots in accordance with this bill in time for the primary election. There are a number of changes which should be made in the bill if it is to become a law. I would suggest that the Senate reconsider the vote and if necessary I will go to Lansing and appear before the committee and state what changes must be made, in order to make it possible for us to print the ballots. Show this to Senators Wood and Condon.

EDGAR O. DURFEE,

Chairman Wayne County Election Commission.

By unanimous consent,

Mr. Penney sent to the desk the following communication, which was received, read and ordered spread at length upon the Journal:

"Outlay for structures and improvements \$150,000.00 \$150,000.00."

The Committee on Normal Schools is impressed with the unfavorable living conditions surrounding students, girls especially, at the Normal Schools of the State.

1. There is a lack of rooms at reasonable price.
2. Many rooms obtainable are undesirable because of physical conditions.
3. Many rooms obtainable are not in houses that furnish proper moral environment.
4. Lodging about the community makes proper supervision of students impossible.

The Committee on Normal Schools believes it is incumbent on the State of Michigan to safeguard the health and morals of the students in the Normal Schools by erecting proper dormitories—a policy everywhere recognized as essential to the well being of young women at educational institutions.

The State Board of Education realizing that the needs of the state in this respect cannot be everywhere met at one time, has taken action as follows:

"Moved by Mr. Freeland, supported by Mr. Cody, that the Committee on Normal Schools of the Senate be respectfully requested to recommend an appropriation of \$150,000 for each of the years 1921-22 and 1922-23 for the purpose of constructing a dormitory at the Central Michigan Normal School at Mount Pleasant."

The Committee on Normal Schools endorses this action of the State Board of Education.
